SUMMARY

Full-stack developer with hands-on experience shipping production applications — payment integrations, real-time systems, and responsive UIs. Comfortable across the stack: React/Next.js on frontend, Node.js + PostgreSQL on backend, JWT auth, REST APIs. Strong fundamentals (450+ LeetCode), fast execution under pressure (multiple hackathon wins). Currently expanding to new fast technologies being released.

EDUCATION

Indian Institute of Information Technology, Nagpur

Nagpur, India

Bachelor of Technology - Computer Science (Data Science and Analytics); CGPA 8.00

Aug 2023 - Jun 2027

City Montessori Inter College

Lucknow, India

12th; 95.25%

Jun 2021 - Aug 2022

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C/C++ , Java (Proficient), Python

Frontend: React, Next.js, HTML5, CSS3/SASS, Tailwind CSS, Bootstrap, GSAP, Lenis, Three.js, React-Three-Fiber, React-Native

Backend & Databases: Node.js, Express.js, MongoDB, PostgreSQL, MySQL, FastAPI, Docker

State & Testing: Redux, Context API, Jest, React Testing Library, Postman, Redis

Tools & Platforms: Git, GitHub, Firebase, Google Analytics, Google Search Console, Cursor, Claude, Gemini

Creatives: Blender (3D Animations), Web Shaders (WebGL) , UI/UX Design (Figma), Miro (FlowMaps), Notion

EXPERIENCE

Mahabal Agro Industry (Freelance) [Link](#)

Tech Stack: React, Vite, Tailwind CSS, GSAP, Lenis, i18n, Web3Forms, Figma, Vercel

- **Built a responsive, multilingual SPA** for an organic farming startup, owning the full lifecycle from component architecture and UI/UX design using Figma to production deployment.
- **Developed modular, reusable UI components** with GSAP and Lenis for scroll-based animations, and integrated Web3Forms for secure, serverless contact management.
- **Achieved 95+ PageSpeed score** by implementing SEO best practices, AVIF image compression, and performance-first asset loading strategies.

PROJECTS

Real-Time Multiplayer Chess Game [Link](#)

Tech Stack: Node.js, Express.js, Socket.IO, EJS, Chess.js

- **Engineered a real-time multiplayer system** using **Socket.IO** and **Node.js**, reducing synchronization latency by 30% through optimized event-driven architecture and **Chess.js** validation logic.
- **Built a concurrent session engine** managing matchmaking and live game state across multiple simultaneous users, leveraging asynchronous event loops for consistent board synchronization.

E-Commerce Application (MERN + Razorpay/Stripe) [Link](#)

Tech Stack: MongoDB, Express.js, React, Node.js, Razorpay/Stripe, JWT, Tailwind CSS

- **Architected a full-stack e-commerce SPA** with modular React components, **JWT-based authentication**, and performance-driven features including Lazy Loading, Debounced Autocomplete Search, and API Rate Limiting.
- **Integrated Razorpay and Stripe payment flows** into a scalable RESTful API, achieving a **98% payment success rate** and **25% faster checkout** across mobile and desktop devices.

ACHIEVEMENTS

- **Codecraft Hackathon – NIT Trichy’24:** 1st place among national participants.
- **TantraFiesta – IIIT Nagpur’25:** 1st place in both **Designathon** and **Genathon** hackathons.
- **Web Dev Hackathon – IIIT Nagpur’25:** 2nd place in Website Development Hackathon.
- **Web Dev Lead – TantraFiesta’25:** Led a team of 4, delivering the official fest website end-to-end — from component design to deployment — serving **1,000+ users**.
- **Web Dev Member – E-Summit’25:** Collaborated on and launched the official college summit site, owning end-to-end deployment alongside a team of 3.
- **Leetcode:** Solved **450+** problems with a contest rating of **1528**.
